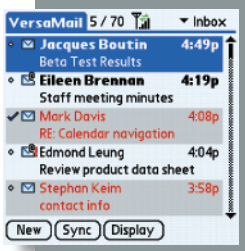
Trēo™ 650

The Treo™ 650 smartphone from Palm® makes it easier than ever to stay connected. It simplifies your life by combining a compact mobile phone with email, an organiser, messaging and web access.[1] There's also Bluetooth® technology so you can connect wirelessly to other Bluetooth® devices, a built-in MP3 player,[2] a digital camera that captures video, and a vibrant colour screen that brings everything to life.

Pick up a smarter phone. The Treo™ 650 smartphone looks and feels just like a phone, but it's so much more. You can carry thousands of business and personal phone numbers with you, and dial any of them by name right from your Contacts list. And a full QWERTY keyboard makes dialing, entering information, and using all of your Treo™ 650's functions that much easier.

Stay connected with wireless email and messaging.[1] VersaMail™ wireless email lets you send and receive email from your existing account when you're away from your desk or out of the office. And you can exchange thoughts and ideas on the fly with text and picture messaging. With the Treo™ 650 smartphone, you're always in touch with what's important to you.



Organise your entire world. With Calendar, Contacts, Tasks and Memos, the Treo™ 650 smartphone lets you organise your business and personal life—all in one place. You can synchronise your calendar and contacts with your computer, so everything's always up to date. Plus, if you already have a Palm OS® powered handheld or smartphone, you can transfer information from your old device with the touch of a button.

Browse web sites on the go.[1] Check the latest news and sports scores while you're waiting for a flight. Featuring a built-in web browser, the Treo™ 650 smartphone loads web sites quickly and even displays pages with frames—all on a bright, crisp touchscreen colour display.

[1] Within wireless service coverage area only. Web, email, and messaging may require data services from a mobile service provider at an additional cost. ISP may also be required. Pricing varies by service provider.
[2] Requires expansion card, sold separately.

Treo 650

Full-featured smartphone

- Use the keyboard to dial by name from your Contacts list, use Favourites, or dial on-screen.
- Speakerphone, speed dial, conference calling, call history, and caller ID are easier to use on the large screen.
- Use picture caller ID and assign ringtones to your callers.

Wireless email[1]

- Support for popular Windows desktop email clients as well as IMAP and POP3 accounts, like Yahoo!
- Download mail wirelessly, or by synchronising with your desktop.[2]
- Built-in Microsoft Exchange Server ActiveSync® protocol for direct corporate email and calendar sync with Exchange Server 2003.
- View photos, HTML, and native Microsoft Word, Excel and PowerPoint attachments.[3]
- Automatic message retrieval on your specified schedule and a "live" Outbox that sends messages at the first opportunity.
- For corporate email solutions, third-party client software also supports Lotus Notes, Novell GroupWise and earlier versions of Exchange.

Text messaging[1]

- Send and receive text messages from your Inbox.
- See an entire conversation in a chat-style thread.

Powerful Palm OS® organiser

- Calendar, Contacts, Tasks, Memos and more let you organise business and personal information in one place.
- Transfer your existing information from a Palm OS® device in one step.
- Up to 21MB of available memory lets you store thousands of entries, plus email, documents, pictures and more.
- View, edit and create Word- and Excel-compatible documents. View PowerPoint-compatible files.[3]
- Choose from thousands of applications supported by Palm OS® 5.4 for additional functionality.

Built-in web browser

- View your favourite web sites quickly.[1]
- Easy 5-way navigation and frames support.
- Download ringtones, applications and more.
- Use hyperlinks to dial phone numbers and send email messages directly from web pages.

Bluetooth® wireless technology

- Easily connect with Bluetooth® headsets and car kits.
- Wirelessly synchronise with your desktop or laptop computer.[4]

MP3 player, camera, and more

- Play your favourite MP3s right on your phone.[5]
- Easily transfer music, photos and video from your desktop.
- Point, shoot and send pictures with ease.
- Capture video and play it back on a high-resolution colour screen.
- Create a digital photo album to store your photos.

[1] Within wireless service coverage area only. Web, email, and messaging may require data services from a mobile service provider at an additional cost. ISP may also be required. Pricing varies by service provider.
[2] Windows only.
[3] Requires DataViz® Documents To Go® 7, included on the Installation CD.
[4] Requires Bluetooth® technology on the computer.
[5] Requires expansion card, sold separately.

(11.3 x 5.9 x 2.3 cm)
(178 grams)
